Experiment - 11

- ⑪ change Hardware Compatibility of a VM (either by clone/Create new one) which is already created and configured:

Aim:- change Hardware Compatibility of a VM (either by clone/Create new one) which is already created and configured.

Procedure:-

- ① Install VM workstation
- ② choose either cloned VM (or) Creating new VM
- ③ Select the VM in virtual machine workstation
- ④ select VM <manage>
- ⑤ click on the change Hardware Compatibility
- ⑥ after that click next and finish
- ⑦ Compatibility of Hardware has been changed.

Result:- Hence changing Hardware Compatibility of virtual machine has been changed.
